

Crafting Research Questions
11.233 Draft and Final Papers

All students will write a draft and, later, a final version of a research proposal, whether first-year paper or other. These papers, up to 10 double-spaced pages each, are due, respectively, in week 8 and 11.

The series of three short papers should move you toward a topic of interest for this draft and paper. You will come to a final decision on its topic in consultation with the instructor.
